Jeff Ricks, the center's executive director, says the company was notified of the positive test on April 12th. He said the employee had not worked in the building since April 9th. ✓ The Athens Utilities Board has issued its annual Water Quality Report for the 2019 reporting year. The report Says AUB water quality exceeded all state and federal water quality standards last year. AUB's drinking water comes from the Ingle-side Spring and from wells that tap an underground aquifer that parallels Oostanaula Creek in Athens. A third source is the Hiwassee Utilities Commission, which supplement AUB's water supply with treated surface water from the Hiwassee River.
