## Schools Making Plans to Reopen

**The McMinn County Schools** will open for all students on August 3rd. At this time, the county schools will open with the beginning two weeks of staggered attendance to acclimate students to new protocols for safety and learning. The reopening plan is intended to be a "living document" that will be revised as new information becomes available. Current plans give students the choice of in-person or remote instruction. In-person learning will include temperature checks, a recommendation of masks for staff and students, increased handwashing/sanitizing and social distancing in the cafeterias.

**The Athens City Schools** plan to reopen on August 10th with special safety protocols in place. Any parent who does not want their child to return to school has the option for the child to remain at home and receive a quality education with virtual or remote learning. The first two weeks will have a staggered start so students can be taught safety procedures. Among the safety protocols: Temperature checks and hand sanitizing before entering the building; Masks for students are optional and not required; Safe distancing when in class and when moving throughout the building; Extra hand sanitizing during all transitions; Extra cleaning and sanitizing throughout the day; Cleaning and sanitizing of buses following morning and afternoon routes each day; Recess on playgrounds will continue but with additional hand sanitizing precautions.
